signs a Preferred Vendor/Distribution Agreement
with **National Healthcare Distributors (NHD)**

featuring PACScomm™
CD/DVD Image Storage & Distribution Systems
**EXPANDS STORAGE, BOOSTS ARCHIVING SPEED, CONVENIENCE
FOR DIAGNOSTIC IMAGE MANAGEMENT**

(Columbia, Md. – July 1, 2009)

ODS Medical (“ODS”), developer of the PACScomm™ suite of CD/DVD image recording, distribution and archiving systems designed to help hospitals and imaging centers move toward a total digital environment, announces the agreement with National Healthcare Distributors (“NHD”). The signed agreement is effective July 1, 2009 and will allow NHD distributors, to represent, promote and sell ODS Medical PACScomm CD/DVD burning/image recording, storage, and distribution systems.

ODS’ systems and solutions have raised the bar in improved image production, workflow, and significant reduction or elimination of film related consumable costs for large, small or pre-PACS facilities, and are in use in medical institutions around the country such as Johns Hopkins Hospital, Montefiore Medical Center, Mount Sinai Hospital, and Park Nicollet. Specifically designed for medical imaging, the PACScomm continues to earn its reputation for speed, workhorse durability, ease of operation, and quick ROI. The PACScomm product line offers a series of high performance systems designed to meet any volume requirements in acute care hospitals, imaging centers, and physician practices with medical imaging services.

Kevin Roth, Chairman of the NHD Board says “NHD is pleased to have ODS Medical as a preferred partner, allowing us to expand our offering to customers looking to enhance and expand their CD/DVD burning/image recording, storage and distribution capabilities”. Mike Flanagan, Executive Vice President, ODS Medical states “ODS Medical is excited to announce our new relationship with NHD.

NHD will be a preferred and major partner in expanding the reach of our high quality CD/DVD burning/image recording, storage, and distribution systems throughout hospitals, imaging centers, and other healthcare facilities.

ABOUT ODS MEDICAL

ODS Medical is a dedicated business unit of Objective Data Storage, LLC, whose history includes more than a quarter-century track record as a developer and value added reseller of optical data storage hardware and software solutions. For almost 20 years, the Company has provided information management solutions to a number of health care industry sectors, including radiology and cardiology. ODS Medical serves the health care market from its corporate offices in Columbia, Maryland.

ABOUT NHD

NHD is owned and operated by 33 large regional suppliers of medical imaging products and collectively generates more than \$450 million in sales. NHD provides its regional Shareholders with national account sales, marketing activities and information systems technologies. The companies that make up NHD work together to secure national contract business, to negotiate favorable contracts with key vendors and to benchmark the exceptional practices of each company.
